by GILDI

Junior

collection

Our most versatile line!

With the perfect mix of colors and design your kids will love! These frames feature interchangeable parts that let them mix and match as they like, and include an elastic band for any kind of sport or activity.

They're the best choice for young people who have outgrown the Kids line but aren't ready for adult styles yet

Did you know? The Amazon parrot stands out for its cheerful, outgoing personality and its amazing ability to mimic voices and sounds.

Wild

Junior collection

Discovering your style has never been this fun. The new Gildi Junior collection is designed for young dreamers beginning to define their own look. Frames made of stainless steel with electrostatic coating —durable and full of character— combine with interchangeable biosil temples, soft and flexible, inviting playful color and self-expression. A perfect blend of refined design and the creative freedom to be yourself.
