CLIP-ON COLLECTION BY GILDI EYEWEAR

**clip-on**

Two worlds, **one click**

Inspired by the fluidity, power, and transformation of America's great rivers, the Eclipse collection from Gildi Eyewear represents effortless versatility. These glasses combine functional design with a clean, modern aesthetic, thanks to the clip-on system, which allows them to be converted into sunglasses with polarized and UV filter lenses with a single click.

Made of metal and stainless steel, Eclipse frames are lightweight, durable, and perfectly adaptable to the dynamics of your everyday life. From the inside out, Eclipse flows with you.

Versatility with character, from the roots of nature.
