

A stylized feather graphic in a light green color, positioned behind the main text. The feather's shaft is a thick, curved line that arches over the word 'feather'. The barbs are represented by numerous thin, parallel lines that fan out from the shaft, creating a soft, ethereal effect.

GILDI COLLECTION

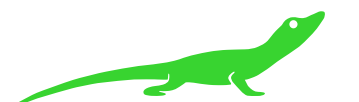

FEATHER COLLECTION BY GILDI EYEWEAR

GILDI OPTICO

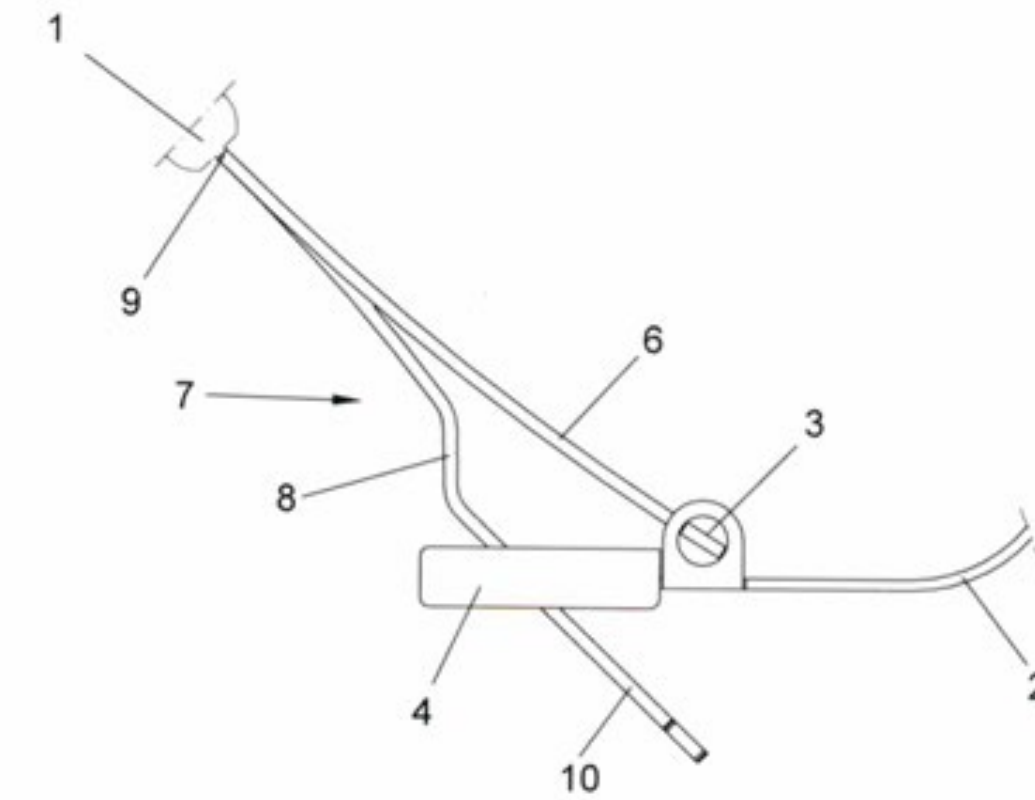

Qué hace ÚNICAS a las bisagras de la **Colección Feathers?**

Están fabricadas en **TN85+** e integran un mecanismo de **bisagra patentado** que a diferencia de sistemas tradicionales, compuestos por mínimo 2 piezas que unen y articulan la montura, nuestro mecanismo hace parte del brazo de las gafas, **eliminando la necesidad de usar tornillos o soldaduras.**

GILDI OPTICO

El mecanismo se compone por una lámina metálica altamente flexible, con cortes laterales tipo tridente, compuesto por una lengüeta central y dos paralelas unidas a un sistema integrado de pivote cilíndrico, separadas por cortes ultra precisos intermedios, que **mejora el rango de apertura de la montura y mejorado la sensación periférica.**

TN 85
plus

Es un termoplástico que se usa para la fabricación de armazones o monturas de gafas. Es extremadamente liviano porque el 85% de su composición es nylon

- Hipoalergénico
- Liviano
- **Monturas más delgadas**
- Duradero
- Resistente
- **Flexible**
